

# HEALTH ADMINISTRATION DEPARTMENT

## General Information

Medical and technological developments taking place in the Health Sector, increasing competition environment, the demands and satisfaction of internal and external customers becoming more important, the need to improve the quality and efficiency of healthcare services, production systems, accounting and financing, management and Management such as organization areas have also come to the fore.

Knowing these conditions, the Department of Health Management continues its education and training activities and conducts education, training and research at undergraduate and graduate levels. This department, on the other hand, aims to raise individuals who are sensitive to the environment, who are sensitive to experience and labor, who ensure the protection of corporate resources, ensure their careful, efficient and effective use, who act with the awareness of social responsibility in the work and decisions made, and to increase the professional knowledge and skills of these individuals to the highest level.

## Employment Opportunities

Students who successfully graduated from the Department of Health Management can be employed as a manager, planner, decision maker or policy maker primarily in private and public hospitals, various health institutions and organizations affiliated to the public and private sector.

In this context, graduates can work in ministries such as the Ministry of Health, the Ministry of Finance, the Ministry of Labor and Social Security, the Ministry of National Defense, universities and the private sector (private hospitals, pharmaceutical and medical device companies, insurance companies and other private health organizations).

## Student Exchange Programs

According to the current agreements, students of the health management department can benefit from Erasmus exchange program in 17 different universities from 8 different countries (Estonia, Latvia, Lithuania, Hungary, Macedonia, Poland, Romania and Slovenia).
