

FACULTY

Our faculty aims to provide students with an education that enables them to communicate effectively in their professional and social lives. Our students have compulsory and elective courses that ensure their field specialization. Our course programs are prepared and updated within the framework of scientific and universal standards. Additionally, our students gain professional experience through a mandatory one-semester internship. Through organized technical tours, conferences, symposiums, and seminars, businesspeople and professionals share their experiences with our students, thereby aiming to ensure that our students are in contact with experts in their field.

Mission:

Providing academic support to the entrepreneurial ecosystem, educating and training employable individuals, and contributing to practical knowledge.

Vision:

To be a proactive business school that enhances the well-being of stakeholders and society, adding value to them.

”

We are training leaders who shape the future of the business world.

“

Sakarya Business School is a pioneering institution offering world-class education. The AACSB accreditation process, which started in 2013 and was completed in 2022, has proven our faculty's compliance with international quality standards. This accreditation provides our students with a global competitive advantage, equipping them with the knowledge and skills necessary to rise to leadership positions in the business world.

AACSB
ACCREDITED

GLOBAL AACSB ACCREDITATION

Our faculty has been a member of AACSB since 2022, an organization that provides quality assurance, business education intelligence, and learning and development services to over 1,850 member institutions and more than 950 accredited business schools worldwide. It is one of the two public universities in Turkey that have AACSB accreditation among the state schools offering business education.

Sakarya University, which works to enhance the quality of education, holds the EFQM (European Framework for Quality Management) award and ISO 9001 certification.

PROFESSIONAL EDUCATION THROUGH EXPERIENTIAL LEARNING IN BUSINESS (7+1)

Students insured by the university spend one semester of their final year working and interning. The Professional Training in Business course is mandatory for all departments. Through this program, our students gain various skills, have the opportunity to apply their field knowledge, and may secure employment at the same workplace after their internship.

BUSINESS ADMINISTRATION (TURKISH - ENGLISH)

Our graduates can be employed in various positions in the private sector, such as middle and senior management, auditing, production planning, quality assurance, marketing management, and others. They can pursue careers in various specialized fields and inspector roles in the public sector.

HUMAN RESOURCE MANAGEMENT

Our graduates are prepared to pursue careers in departments such as human resources management, administrative and financial operations, public relations, and project management within public institutions, private enterprises, and non-governmental organizations. They are also qualified to work as Employment and Vocational Counselors at the Turkish Employment Agency (ISKUR) and have the potential to establish their own consultancy and training firms.

HEALTH MANAGEMENT

Our graduates can work in various institutions within the healthcare sector, including the Ministry of Health, Social Security Institution (SGK), hospitals, rehabilitation centers, private health insurance companies, health associations, pharmaceutical and medical device manufacturing and sales companies, health research centers, and others.

INTERNATIONAL TRADE AND LOGISTICS

Our graduates can pursue careers in public institutions such as the Ministry of Trade, Ministry of Foreign Affairs, Central Bank, and Eximbank. They can also work in international marketing, trade, transportation, and logistics services and seek employment in European Union institutions. Additionally, they have the opportunity to become entrepreneurs in the sector.

“Sakarya Business School and the Graduate School of Business are accredited by AACSB International at both undergraduate and graduate levels.”

MANAGEMENT INFORMATION SYSTEMS

Our graduates can work in public institutions and various sectors in positions such as systems analyst, project manager, business intelligence specialist, network specialist, academician, application developer, social media specialist, digital marketing specialist, IT and communication consultant, and information technology specialist.

INTERNATIONAL COLLABORATIONS

We offer our students domestic and international education opportunities through exchange programs like Erasmus, Farabi, and Mevlana. Interested students can also benefit from international internship programs. These initiatives allow our students to explore different cultures and gain international experience.

For detailed information about our faculty's internationalization activities, please visit our website's 'Internationalization' section.

EDUCATION-TEACHING

Our faculty comprises five departments: Business Administration (Turkish-English), Human Resources Management, International Trade and Logistics, Health Management, and Management Information Systems. Except for the English Business Administration Department, the instruction language of other departments is Turkish. However, students who wish to do so can receive one year of English education in the university's English preparatory program. Additionally, we offer mandatory English courses and elective professional English courses within our curriculum to help students enhance their English proficiency.
